

# ACME A.P.P.G.

Susan Callery

9/20/2010

Public Participation Specialist Department of Toxic Substances Control (DTSC) (Via Electronic Mail)

Dear Ms. Callery,

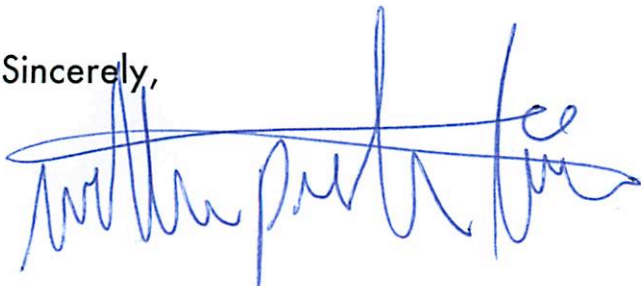

Please find enclosed with this correspondence my application for membership within your Public Participation Group (PPG). ACME (Aerospace Contamination Museum of Education) would like to be one of the organizations that you have identified in the below quote "We have identified a number of organizations as capable of providing an important contribution to the Group either due to location, perspective, knowledge or interest, or through a unique relationship to the site"

ACME would like to participate in this PPG to it's full capacity by being on any type of board or decision making body, if such a body is put in place.

My work and the ethical approach shown over the years, along with my knowledge of the Santa Susana Field Laboratory as creator of [www.RocketdyneArchives.com](http://www.RocketdyneArchives.com), should be considered and I should be placed properly.

Please confirm the receipt of my application and feel free to call me with any questions...310-428-5085.

Sincerely,

William Preston Bowling - ACME

Aerospace Contamination Museum of Education

P.O. Box 1636, Topanga Canyon, California 90290

cc: Rick Brausch, Maziar Movassaghi, Mark Malinowaski, Doug Sheeks & Gerard Abrams - DTSC

1. Briefly state why you would be a valuable member of the public participation group.

As creator of Rocketdyne Archives.com, The Rocketdyne Information Society and ACME, in addition to my in depth comments on ALL RFE documents in the past few years my knowledge and ethical approach will be needed in such a group that DTSC is forming.

2. Do you have any current or former relationships with any organizations involved in the cleanup effort that are important for the selection committee to know?

I have current relationships with EPA, DTSC, NASA, Boeing, DOE, Senate, Assembly, Solar, NRDC, RWQCB as well as all several local government agencies and councils.

3. Do you participate in or are you a member of another local groups where people are interested in the Site?

I am founder of ACME (Aerospace Contamination Museum of Education) and participate in several technical groups related to the Santa Susana Field Laboratory Cleanup efforts.

4. Describe a recent experience where you worked cooperatively as a member of a group with diverse viewpoints or interests.

I worked cooperatively with EPA, Committee to Bridge the Gap, Cleanup Rocketdyne.org and the responsible parties in selecting Radiological background areas and the Historical Site Assessment.

5. Do you have technical expertise in the following (not required):

Geology - yet No Degree

Biology

Toxicology

Engineering - yet No Degree

Other (please explain): History of the SSFL

**6. Age Range:**

Age: \_\_\_ Under 25 \_\_\_ 25 - 40  41 - 55 \_\_\_ 55 or older

(This information will help ensure that Group members reflect the entire community.)

**6. Do you have any additional questions or concerns about the public participation group or the Santa Susana Field Laboratory?**

I would like to see all three of the Responsible Parties addressed by the newly formed group as the workgroup excludes the Boeing Co. the majority landowner of the SSFL to ensure our questions get answered.

**Please return your completed application to:**

Susan Callery, Department of Toxic Substances Control  
9211 Oakdale Avenue  
Chatsworth, CA 91311  
(818) 717-6567

For additional information or questions regarding the public participation group for Santa Susana Field Laboratory, please visit the SSFL website at:
