(Via Electronic Mail)

Dear Mr. Biederman,

Thank you for the answers to my questions regarding the potential sale of the GSA held National Aeronautics and Space Administration (NASA) parcels at the Santa Susana Field Laboratory (SSFL) https://www.gsaadvantage.gov/ref_text/GS23F0115N/0CVC4V.1L1I58_GS-23F-0115N_FILE11.HTM
The above link is from the GSA website that identifies a community member as a CURRENT GSA contractor. This person attended the March 1st, 2012 Section 106 meeting that you attended via conference call, see attached sign in sheet.

What is his role with GSA? Why does he not identify himself as a contractor for GSA or NASA? Is his salary being paid for by taxpayer dollars?

This person comments on the SSFL blogs without identification of representation.
<http://tech.groups.yahoo.com/group/TheRocketdyeInformationSociety/message/5059>
<http://tech.groups.yahoo.com/group/TheRocketdyeInformationSociety/message/6087>

Then he commented in public at the March 27th, 2012 NASA held meeting for their Environmental Impact Statement, in favor of NASA.

This is a conflict of interest as the public does not need a responsible party employee to filibuster process time from other stakeholders. He should be identified as a GSA contractor and not pose as a community member.

I look forward to your response as the Community looks forward to a Proper Cleanup of the Santa Susana Field Laboratory, it's Related Facilities and the Surrounding Communities.
