

**DEPARTMENT OF TOXIC SUBSTANCES CONTROL
SANTA SUSANA FIELD LABORATORY
PUBLIC PARTICIPATION GROUP MEMBERSHIP APPLICATION**

Service on the DTSC Santa Susana Field Laboratory (SSFL) Public Participation Group (Group) is voluntary. Group members can expect to devote 6 to 12 evenings per year participating in meetings and activities, depending upon the principles of participation, which will be confirmed by the Group in its first meeting. Initial terms of service on the Group are anticipated to be for two years.

Duties and responsibilities will include listening to presentations from technical and other experts, reviewing and commenting on technical documents and other activities associated with the investigation and cleanup of the Santa Susana Field Laboratory. Applicants must be willing to commit to consistently attending evening meetings and working cooperatively with other Group members with diverse viewpoints. Because many of the issues under discussion at Group meetings will be technical in nature, you should also be willing to invest time in reviewing documents outside of the time spent actually attending meetings.

DTSC wants to ensure that the membership of the public participation group is reflective of the diversity and interests of the community surrounding SSFL.

Please answer the following questions. If you need additional space to write your answers, please use the back of the application or attach additional pages as necessary.

Name: _____

Address: _____

Phone: () _____ () _____ E-mail _____
Daytime Evening

1. Briefly state why you would be a valuable member of the public participation group.
