and
Mr. William Bowling
ACME Aerospace Cancer Museum of Education
23350 Lake Manor Drive
Chatsworth, California 91311

Dear Ms. Walsh and Mr. Bowling,

NASA would like to thank you for your many offers to host events in your conveniently-located Museum space in Chatsworth, near the Santa Susana Field Laboratory. We also thank you for your continued related efforts to help us encourage community involvement in the important environmental cleanup NASA wants to achieve. Successful cleanup will result only if we have members of the community actively involved in analysis, characterization and the selection of remedies.

We particularly appreciate your hosting, at the Museum, NASA's December 5th, 2008, "Informal Technical Community Meeting" about NASA's Draft RFI Group 2 Report. We feel that the dialogue in which we all engaged during that nearly four-hour meeting was extremely productive. Your Museum space is intimate enough to encourage a forthright sharing of ideas, yet large enough to accommodate comfortably the community members along with the speakers, reports, maps and projection equipment. We also appreciate your follow-up in posting electronic materials regarding our meetings and making available a hard copy of the voluminous report for local review.

Please contact me at (818) 393-0754 should you have any questions or suggestions for us.

We look forward to continuing to work with you in 2009.

Sincerely,

A handwritten signature in blue ink that reads "Merrilee Fellows".

Merrilee Fellows
NASA Manager for Community Involvement for
Environmental Remediation
