Dear Mr. Samorano:

TENTATIVE ORDER - TERMINATION OF WASTE DISCHARGE REQUIREMENTS FOR FORMER HUGHES MISSILE SYSTEMS COMPANY, 8433 FALLBROOK AVENUE, CANOGA PARK, CALIFORNIA (ORDER NO. 95-012, CI-7483)

On January 23, 1995, the Los Angeles Regional Water Quality Control Board (Regional Board) adopted Waste Discharge Requirements (WDR), Order No. 95-012 for discharge of treated groundwater at former Hughes Missile Systems Company located at 8433 Fallbrook Avenue, Canoga Park.

On June 30, 2010, Discharger notified this Regional Board that there are no discharges into groundwater at the site, and requested termination of WDR Order No. 95-012. Regional Board staff verified this, by reviewing the file and data, and determined that WDR Order No. 95-012 is no longer needed.

In accordance with administrative procedures, this Regional Board, at a public hearing, will consider the enclosed tentative Order, which, in part, will terminate WDR Order No. 95-012. The hearing will be held on September 2, 2010, at Metropolitan Water District of Southern California, 700 North Alameda Street, Los Angeles, California and will begin at 9:00 a.m.

In order to be fully evaluated by Regional Board staff and included in the Board's agenda packet, written comments must be received at the Regional Board office by 5:00 p.m. on August 13, 2010. Failure to comply with these requirements is grounds for the Board to refuse to admit the proposed written comment or exhibit into evidence. Timely submittal of written comments is encouraged to ensure that all comments are accurately and fully included in the administrative record, that Board staff is able to provide a timely review, and that Regional Board Members have sufficient time to give full consideration to the comments and issues raised.
