

GROUNDWATER

Building an understanding of groundwater
at Santa Susana Field Laboratory

DOE, NASA, and Boeing have submitted a highly technical site-wide Groundwater Investigation Report to DTSC. DTSC will provide the public an opportunity to review and comment on the Groundwater report. This series of groundwater education sessions is designed to help interested stakeholders prepare to review the Groundwater Report.

Groundwater U will consist of six sessions and a geology field trip.

All presentations will begin at 6:30 p.m.

The first set of sessions will be held at

Grand Vista Hotel
999 Enchanted Way
Simi Valley, California

Tuesday, March 8, 2011

Geology/Hydrogeology – *presented by Dr. Richard Laton, Associate Professor of Hydrogeology in the Department of Geological Sciences, California State University, Fullerton*

Tuesday, March 15, 2011

Contaminant Fate and Transport – *presented by Dr. Matthew Becker, Professor and Conrey Endowed Chair of Hydrogeology, Department of Geological Sciences, California State University, Long Beach*

Tuesday, April 5, 2011

Groundwater Remediation Approaches – *presenter is not yet confirmed.*

The second set of sessions will be held in

Building 8413 Auditorium
Corporate Point West Hills
8413 Fallbrook Avenue
West Hills, California

Thursday, April 28, 2011

Groundwater Flow at the SSFL

Thursday, May 5, 2011

Contaminant Sources
at the SSFL

Thursday, May 19, 2011

Contaminant Fate and
Transport at the SSFL

The sessions will be presented by the SSFL Groundwater Advisory Panel which directed the preparation of the Groundwater Investigation Report.

The panel is composed of:

- *Dr. John Cherry, Distinguished Professor Emeritus, University of Waterloo, and Adjunct Professor, University of Guelph*
- *Dr. David McWhorter, Distinguished Professor Emeritus, Department of Chemical and Agricultural Engineering, Colorado State University*
- *Dr. Beth Parker, Professor and Canadian NSERC Industrial Research Chair in Fractured Rock Contamination Hydrology, School of Engineering, University of Guelph, and formerly a research professor at the University of Waterloo.*

Individuals wanting to attend the Groundwater U are encouraged to pre-register at <http://groundwateru1.eventbrite.com> or call Debbie Kramer at 818-466-8898.

The field trip will be held on Saturday, April 30, 2011

Registration for the field trip is required in compliance with site security requirements.

Sponsored by: The Boeing Company, the U.S. Department of Energy (DOE), and NASA, in cooperation with the California Department of Toxic Substances Control (DTSC)
